Aspenglow Boulevard Being Prepared for Winter

This week, the Archuleta County Road and Bridge Department is working on Aspenglow Boulevard to try to improve the road's drivability. Due to the poor condition of Aspenglow Boulevard, the existing chip seal pavement is being pulverized and mixed with gravel to improve the roadway surface. This action is in anticipation of the reconstruction and paving scheduled for next year. It will also facilitate more efficient snow plowing in the upcoming winter season.

Aspenglow Boulevard is one of the roads recently approved by the Board of County Commissioners to be repaved in 2010. For more information, please see our website at www.archuletacounty.org.
