RE: Pagosa Forest Products Use By Right Permit Extension Request

Dear John Shepard,

The purpose of this correspondence is to request an extension to the Use By Right Permit for the Pagosa Forest Products (Case File PLN18-068). The permit was approved July 30, 2018 for Lot 2, Sustainable Forest Development on Cloman Blvd., to extend the existing adjacent Sawmill with accessory processing of woodchip byproducts, as an Industrial use in the Agricultural/Ranching zoning.

We are requesting a one year extension of the UBR permit.

Thank you for your consideration.

Courtney King
Principal Architect
