2	Archuleta County	County Comprehensive Plan	Addresses Economic Development Goals	Addresses Resiliency Initiatives	Archuleta County Community Plan 2017	High	Outlined per the Plan	Outlined per the Plan	Outlined per the Plan	Outlined per the Plan	Outlined per the Plan	In Progress	https://www.archuletacounty.org/DocumentCenter/View/2051/Archuleta-County-Community-Plan-2017?bidId=
3	Pagosa Springs	Housing	Make Critical Investment in Community Infrastructure	Housing Attainability (HA2)	Workforce Housing	High	Housing organizations Archuleta County Pagosa Springs Housing Advisory Committee Housing Authority Economic & Planning Systems EPS	State, federal & local funding	Undetermined	Retain workers in county to raise families	Meet community workforce housing needs 1) Fund Site Work and Provide Property for a Low-Income Housing Project	In Progress	This is a long term, ongoing goal. Archuleta County Housing Authority is building a 34 unit complex on Hot Springs Blvd to serve people earning 60% and below AMI (completion in late 2021). Town purchased a half acre vacant parcel to build 8-12 units of workforce housing. Policy considerations and long term funding are needed to address this important issue.
4	Pagosa Springs	Parks & Recreation	Invest in Roads and Bridges	Building and Infrastructure Sustainability (BI1)	Implement Downtown Riverwalk Master Plan	High	Pagosa Springs CDOT	Town County GoCO CDOT Impact Fees	Undetermined	Construction jobs	Continuation the buildout of the River Walk along the San Juan River between the southwestern and the northeastern Pagosa Springs boundary 1) Build pedestrian access on McCabe Creek 2) Repave/redesign of downtown HWY 160 corridor (especially along McCabe Creek)	In Progress	CDOT has put McCabe Creek project on hold until funding is available. Hwy 160 corridor Vision Plan has been adopted by CDOT And Town Council, with a lot of public input. No funding has been identified by CDOT to complete the projects within the corridor plan. River Walk will be continued eastward from Town Park to the First St. bridge in 2021. A multi modal grant for the planning of the pedestrian and traffic improvements east of the First St. bridge has been received (through CDOT funding). Plans for extending trail connectivity are also contemplated for Yamaguchi South (former sewer lagoon property).
5	Pagosa Springs	Parks & Recreation	Make Critical Investment in Community Infrastructure	Building and Infrastructure Sustainability (BI1)	Trail from Pagosa Lakes to downtown Pagosa Springs	High	Pagosa Springs Archuleta County CDOT Private homeowners HOAs	Town County CDOT Pagosa Lakes Property Assoc GoCO	Based on alternative chosen	Construction jobs	Construct trail from Pagosa Lakes to downtown Pagosa Springs	In Progress	Two sections have been completed to date and a third section-Harman Park-is currently being designed with construction expected in 2022. At least three middle phases will remain after than to connect uptown and downtown. Alignments, partnership with funding agencies, and obtaining easements for middle phases is a goal for 2021 and beyond.
6	Archuleta County	Public Infrastructure	Make Critical Investment in Community Infrastructure	Climate and Natural Hazard Resiliency (CN2)	San Juan Basin Integrated Water Management Plan, Phase III	High	Upper San Juan Watershed Enhancement Partnership (WEP) Mountain Studies Institute (MSI) San Juan Conservation District Trout Unlimited Natural Resources Conservation	Colorado Watershed Restoration Program (CWRP) grant Water Supply Reserve Fund (WSRF) Southwest Basin Roundtable County Town Nature Conservancy Trout Unlimited Southwestern Water Conservation District San Juan Water Conservancy District	About \$100,000	Outlined per the Plan	1. Completion of a well-coordinated process that informs and incorporates input from stakeholders and the community as a whole 2. Current data, models, and inventories incorporating the project areas' hydrology, E&R water needs, agriculture infrastructure, forest health, and climate change scenarios to enhance understanding of existing and potential future water resource conditions 3. Identification of cooperative projects to address multiple water needs, including environmental, recreational, agricultural, and municipal 4. Prioritized actions or projects based on community values and evaluation of benefits (e.g. ecological, economic, recreational, agricultural efficiency), direct or indirect consequences, and feasibility 5. A comprehensive plan that describes the goals, objectives, and results from this process for other organizations or agencies to utilize, reference, and leverage for project implementation.
