RE: County Investigative Health Committee

Dear Liane,

As you're probably aware, the Archuleta County Board of County Commissioners (BoCC) has formed a committee to research the pros and cons of creating its own public health agency. In order for them to provide the BoCC with a comprehensive study, they have asked for information that would need to come from San Juan Basin Public Health (SJBPH). They have also requested a meeting with SJBPH to answer specific questions related to the services provided to the County from SJBPH.

Attached is a copy of the committee's letter and specific questions. We would appreciate it if you and your team could comply with the requests at your earliest convenience. Additionally, please contact Marybeth Snyder directly at (970) 581-3457 to set up the meeting.

This letter has been unanimously approved by all three commissioners.

We appreciate your cooperation with this request.

Sincerely yours,

Alvin Schaaf
Chairman,
Board of County Commissioners
